WINFIELD HOMES

Stunning is the word that comes to mind when you first walk into this custom designed and built home on Lake Winnebago. First, you are greeted with an incredible view of the lake through the multitude of huge windows in the great room, bringing the outside into this lovely home. Then you notice the custom built-in cabinetry surrounding the stone fireplace, and the openness to the luxury kitchen.

Highlighted by custom Wilco white-painted cabinetry and finished off with an amazing blue quartz countertop, this home is perfect for cozy family time as well as entertaining friends. The breakfast nook is surrounded by huge windows and an entrance to either the “Brazilian Ironwood” deck or the screen porch in which to relax on those hot summer evenings enjoying the breeze across the lake. A voluminous walk-in pantry with additional refrigerator and freezer promotes the convenience of this wonderful kitchen.

The large laundry room also serves as the gardening center, and the owner’s hobby room are located right off the super-sized 2+ garage with epoxy-painted floors and built-in tool racks.

To the other side of the home, after passing a lovely formal dining room, you can either relax in the “away room” to the front of the home where the owners enjoy the sun and work in their home offices, or go to the rear of the home to see the master suite.

387 WILLOW DR., FOND DU LAC

The master suite also enjoys large windows facing the lake, a tray ceiling, his and her walk-in closets, and a luxurious master bath with tiled-in shower.

Upstairs you will find two huge bedrooms, a loft for entertainment or study, and a wonderful balcony with stunning lake views. This is a dream home that can come true for you, too!
